WHO WAS JACQUES POLTON ?

Jacques Polton *(on 16-05-2009)*

Jacques POLTON was simply a very kind man, a banker who played *jeu de paume* at the club on rue Lauriston.

He loved the sport and decided one day to offer the club a silver tray as a prize for a tournament with handicap for players over 50 years of age named after him: la **Coupe Jacques Polton**.

Later in life, he developed Parkinson's Disease but continued to play for a few years, until he couldn't perform any longer.

He passed away on December 10, 2012.

His wife, Bianca Polton, who visited the club a few times, was never really interested in *jeu de paume*.
